## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 10-11 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Watson 3,713,490. Watson shows a method of halting the flow of fluid in a well (col. 5, lines 42-49); deploying a tool 50 from within the well while the fluid is halted (col. 5, lines 39-42); allowing the tool to free fall in the well while the fluid is halted (col. 4, lines 1-6); and resuming the flow to retrieve the tool.

As concerns claim 11, Watson shows introducing a delay to allow the tool to reach a given depth, position 50' in figure 2.

As concerns claim 26, shows using the tool to take a corrective action in the well, this action is to close opening 26 in order to sever pins 32 (col. 5, lines 42-49).

### ***Allowable Subject Matter***

3. Claims 12, 25, and 27-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 10-12 and 25-29 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
